MAVERICK
SOLUTIONS

Why Partner With Maverick

Deliver More Value

Leverage implementation assets that you already create to deliver even more value.
Maverick utilizes implementation documentation that has already been created and combines it with client processes and business narrative to provide a customized training solution for your client's config and core teams. But why stop there? We also provide a comprehensive DAP so core and self-service users get in-app guidance when they need it, where they need it. Deliver more value to your clients without the added workload.

Implementor + Client Input = Maverick Output

Implementor

✓ Implementation Documentation
Test Scripts
Change Impacts

Client Input

➕ Business Model
Business Processes
Business Narrative

Maverick Output

= Customized Training Content and Learning Paths
DAP (In-app Guidance)
Robust Analytics and Support

MAVERICK SOLUTIONS

01 PARTNER
02 CLIENT
03
Accelerating Leadership through Training

Improve Implementation Success

Rely on Maverick to provide your clients with Digital Training and Adoption. Our teams work in parallel to the implementation with continued support long after go-live. Ensure a successful implementation by enabling users with customized learning paths and interactive tutorials leading up to go-live and future onboarding. After go-live drive user adoption through in-application guidance and analytics so your client continues to see the benefits of the hard work you put in.

OUR TRAINING WORKS WITH:

ORACLE   workday.   salesforce   Dynamics 365   SAP   HTML5

Maverick ENGAGE is a comprehensive training and adoption platform. To find out how you can partner with Maverick to deliver more value and improve implementation success, contact our team:
